Encourage the Firemen

The Fire Brigade met Monday and decided to ask the council for a half dozen helmets and rubber coats for the hose and ladder men. The request is so reasonable it should be granted. The firemen work for nothing and fill an important place in the civic life. Claresholm has fortunately been free from dangerous fires but such as have occurred were fought with excellent judgment and there has ever been a prompt response to an alarm. It is almost positive that no one would object to the council making an appropriation this year to give the firemen the asked for uniforms. In fighting a fire in the winter the cover, heat and pool of water spilled on a man might have disastrous results. When the town has a bunch of young men ready to serve in this capacity they should be encouraged. Other towns have to pay men for even attending ordinary meetings of the brigade. Besides uniforms the town might well present badges which would help distinguish members of the brigade and assure them of right of way at a fire.

Letter From Mr. Priest

Perry, Oklahoma, Dec. 31, 1909
Editor of Review: If you will kindly grant use a little space in your paper I would like to inform friends of existing conditions in the south. My star from Lethbridge was in a car that had just arrived from the far north country that took tried to make the world believe he had seen, at Lethbridge, and attended its frozen streets. Lethbridge is a beautiful city. The wonderful growth of my home town Devils Lake when has increased from 1800 to 3000 population in nine years. The balance of the journey was unattended with anything of a special nature except late trains and zero weather. Perry is a city of about 4000 inhabitants. They run and operate the light and water works system. It is 16 years old just realizing the need of a sewerage system. They have the Santa Fe and Frisco Railways. A 225 barrel flour mill, one corn and coffee mill. I showed the millers a sample of our wheat which made their eyes bulge and a lot of inquiries followed. The price of skilled and day labor is 50 per cent less than in Alberta and the price of bread is 20 per cent less, but the people lack the energy and rush of the northern people.
F. W. Priest

The First Hockey Match

Graham and Claresholm hockey experts clashed here New Year's night the grain town puck chasers going down to disastrous defeat. They hadn't a look in being constantly on the defence. The score was 10 to 1. The Claresholm teamers: A. J. H. Amundsen, Eric Moffatt, Joe Griffith, H. W. Browne, P. K. Simpson, W. G. Johnston and D. Munro. Referee: J. E. Ardell.

Twenty Four Hour Service

Claresholm has now a 24 hour telephone service. It has been raised to the status of a first class office and with the first of January the continuous service started. The service is now comfortably ensconced in the new offices and Mr. Brooks the district manager is to be congratulated on having such a capable and obliging staff of assistants. The people of Claresholm have now little fault to find with the telephone service. When you grow impatient at a call not being responded to in one-sixteenth of a second don't forget that central may be busy with a long-distance connection North and South and be adjusting the wires for one or two other persons in Claresholm. So my dear friend Central, hasn't any easier task than you have.

Bowie-Carlson

On Thursday Dec. 30th Mr. John Bowie of Meadow Creek one of the most popular troopers of the Alberta Rangers was married to Miss Ellen Olivia Carlson, daughter of Mr. and Mrs. John Carlson. The ceremony which was witnessed by a number of intimate friends of the family was performed by Rev. F. Henderson of Claresholm. The bride wore a handsome gown of pale blue chiffon over silk and the time honored orange blossoms. She was supported by her sister, All Carlson while the groom was similarly honored by Mr. R. McCombie of Claresholm. After the ceremony the guests sat down to a bounteous spread wedding dinner. Among those present were Mr. and Mrs. Lou Ugland, Mr. and Mrs. Foss, Mr. and Mrs. Bob Coulter, Mr. and Mrs. Nooren, the Messrs. Nooren, Miss Leonard, Mr. and Mrs. Alf Stevenson, Mr. and Mrs. Alex. Stevenson, the Messrs. Thompson and others. In the evening a reception and dance was held at the school house at which a large number of people enjoyed the hospitality of Mr. and Mrs. Bowie.

Short Courses in Agriculture

The short course in agriculture held at Lethbridge last March proved so successful that the Department of Agriculture has made arrangements to hold three short courses as follows: Lethbridge, Feb. 28 to Feb. 29; Olds, Feb. 28 to Mar. 5; Vegreville, Mar. 24 to 30. The location of the schools is above should give every farmer and home owner who desires an intensive acquaintance of an incident, one of these short courses. The title of the course is: "The Short Course in Agriculture." Cost of instruction will be given in book, lecturing, agronomy and poultry raising. For one of selected live stock will be used for demonstration purposes and instruction given on the subjects of breeding, feeding, care and management of stock. Instruction in dairying will cover the subject from the production of milk to the marketing of the finished product, with general dairy machinery in operation. No instruction will be given at Lethbridge, but it will be a special feature at Olds and Vegreville. Field work in grain growing with special emphasis on soil cultivation will receive special attention, with samples of grains, grasses and weeds for illustrative purposes. Instruction in poultry raising will cover all the phases of the subject, with incubators and brooders in operation. Cuts, fattening and marketing will be specially demonstrated. An effort is being made to obtain special railroad rates and also for board and lodging, particulars of which will be announced later. Instruction is free and open to all. Women are especially invited to poultry lectures.

The United Farmers of Alberta will hold a meeting in the council chamber on Saturday afternoon at 8 o'clock. As questions of vital importance to every farmer will be discussed it is hoped there will be a large attendance.

Mr. and Mrs. William Vaughan are mourning the death of their infant son Harry, who passed away New Years eve aged four months. The funeral took place on Sunday afternoon Rev. R.D. Stamer officiating. The sorrowing family have the sympathy of all in their sorrow. The babe was a victim of pneumonia.

One of the finest bunches of horses ever gathered in the Clareholm district were bought last week by Mr. Collis Tiltson for big lumber firms in British Columbia. They were certainly beauties every one of them standing over 16 hands and weighing over 1500 pounds. They were magnificent specimens of the equine race and demonstrate that Clareholm district does produce mighty fine horseflesh. Mr. Tiltson had the bunch photographed on New Years day.

A Russian who worked in this district for the past five years was sent to Macdonald general hospital a week or two ago and after being there five days was presented with a bill for \$7.50. Not having the money he was not allowed to remain which disposed of the notion that the hospital at Macdonald is general. The man is a subject for deportation and should be looked after by the immigration department. He has a wife living in Russia.

Sgt. Major Schoof Interviewed

While lecturing at Racine, Wisconsin, Major Gustav Schoof was interviewed by the Daily Journal on the death of King Leopold of Belgium. As one who knew the Congo intimately Mr. Schoof was enthusiastic over the death of Leopold. He said, "I feel as if the sun is rising in the Congo land, although I am a Methodist and a missionary, I feel that the depot will be removed with open arms by the Belgian majority. For many years I have travelled through that great Congo land and I have seen the natives suffering under yoke and shackles that would make a strong man shudder."

Card of Thanks

Mr. and Mrs. William Vaughan wish through the Review to express their gratitude for the many kind notes shown in their recent bereavement through the death of their son. They take this means of thanking all and will ever hold the evidences of friendship in grateful recollection. Wm. Vaughan.

WINNIPEG TO FORT WILLIAM

GOOD PROGRESS ON N. T. R.
RAILWAY

Seventeen Thousand at Work Between Winnipeg and Moncton—Over 700 Miles of Track Has Been Laid and Grading Has Been Completed for 400 Miles More—\$25,000,000 will be Spent During Coming Year.

Ottawa.—During the year just closing excellent progress has been made with the construction of the National Transcontinental railway. Work has been actively prosecuted along every section of the line from Moncton to Winnipeg, and an army of from 16,000 to 17,000 men has been busy at work all the year long. The contractors report that the conditions generally have been favorable to a rapid completion of the work of grading and track laying.

At the end of the year the progress report shows that over 700 miles of

District "F," extending from Winnipeg to Sudbury, in 1930, was practically completed during the year and the first through train from Winnipeg to Fort William made the journey early in November, although a freight train on this, the first complete point-to-point of the national line, will not be inaugurated for some months yet.

The first shipment of wheat from the west was made over the line in the middle of June. This year, 1931, having been brought from Winnipeg to Fort William.

During the year approximately 350 miles of track were laid, exclusive of the 100 miles of the Canadian Pacific in Ontario, about 85 miles in New Brunswick and the balance in Quebec.

The expenditure during the year was approximately \$20,000,000, and the total outlay (since construction work began is now \$70,000,000.

During the coming year it is estimated that \$25,000,000 will be spent on work and by the end of the year the completion of the whole of the government section will be almost in sight, with the probability that by the end of 1911, the date fixed in 1904 as

he one when the line might be expected to be complete, there will be very few gaps in which steel is not laid between Moncton and Winnipeg.

Britain Need Not Fear for Canada
London.—The British Empire club

The committee of the club includes *Lord Strathcona, High Commissioner of Canada in England; Earl Onslow, Lords Blythe and Brassey.*

J. S. Willison, editor of the Toronto Jews, acknowledged the toast to the press. He said that Great Britain need not be anxious about Canada. "We on the other side," he said, "are not anxious on account of Great Britain." No one, he continued, thought that Great Britain was a dying country, and while Canada had been slow to move she would do her duty to the empire. Not only in mere loyalty to it, but in defense of its integrity.

"We in Canada," continued Mr. Willison, "refuse to believe that there is in this British island any feeling of hostility to the colonies, or that there is any party with which the interests of the empire are not absolutely secure."

Mr. Willison further declared he believed that as the years went on there

More bread and Better bread —And the Reason for it

A STRONG FLOUR can only
be made from strong wheat.
Manitoba hard wheat is acknow-
ledged the strongest in the world—
and that is the kind used for
Purity Flour.
But that's not all. Every grain
of this wheat contains both high-
grade and low-grade properties.
In separating the high-grade parts
from the low-grade the Western
Canada Flour Mills put the hard
wheat through a process so exacting
that not a single low-grade part
has the remotest chance of getting
in with the high-grade.
Of course this special process is
more expensive to operate but it
means a lot to Purity flour users—
that's why we use it.
It means that Purity Flour is
made entirely of the highest-grade
four parts of the strongest wheat
in the world.
It means a high-class, strong flour
and therefore yields "more bread
and better bread."
Purity may cost a little more
than some flours, but results prove
it the cheapest and most econom-
ical after all.
